Motion to Vacate At-Large Election Order is Filed

Hearing Date Not Set; Further Council Action Expected Monday Night

A motion to set aside a court order issued last week requiring an at-large election of seven Granite City aldermen on April 4 was filed in Madison county circuit court Tuesday in behalf of nine aldermen. A hearing date has yet to be set.

The motion, filed by City Attorney Richard Allen and Dick Mudge of Edwardsville, claims that the order issued last week by Associate Judge J. H. Streeter is beyond the scope of the court's authority in a mandamus proceeding.

The action was taken for Aldermen Robertson, Barsiak, Nunn, Basarich, Dallas, Boyd, Poulos, Parney and Johnson.

Further petition to intervene in the case was filed yesterday by William Beatty, Granite City attorney, on behalf of Dallas and Barsiak. If a favorable decision is not presented by Judge Streeter, Allen said, the court order will be appealed to appellate court.

City Attorney's Views
The city attorney said it is doubtful that the appellate court would convene before the April 4 election, and that Judge Streeter's order to re-district the city into seven wards and to hold an at-large election would not be upheld. The election in all likelihood will be held on a ward basis covering eight wards, Allen added.

Allen also questioned the legality of future actions of the city council if part of it is elected on the at-large basis. It might open the way to increased tax objections by railroads and large corporations, he said.

Alderman Robertson said he had not been informed of the motion and had not authorized use of his name. But he added that he would participate to help clarify the recent court order.

"I am concerned about the validity of future bond issues, tax levies, air pollution abatement ordinances and any other actions which hereafter may be undertaken by the city council," he said. He added that he is not taking the side of any faction but would like to see the matter determined by the Illinois Supreme Court before the election.

Last Monday was the final date (Continued on page 3, col. 4)

GC Paratrooper Hitchhiking Home Hit by Car, Killed

Sp4 William Ray Fisher, 20, of Granite City, who was hitchhiking home on leave before his departure from Fort Campbell, Ky., for Vietnam, was struck and killed by an auto Tuesday night on Interstate 270 at Bellefontaine road in St. Louis county. He was about 11 miles from home.

The paratrooper, who only recently had received his wings, is a son of Mr. and Mrs. Delmar Cottrell, 2313 Independence drive. He was pronounced dead upon arrival about 11:20 p.m. at St. Louis County Hospital.

Missouri state police said the mishap occurred about three miles west of the Chain of Rocks bridge and that Sp4 Fisher was walking along the interstate exit ramp when he was struck by an auto driven by Gerald Michael Wynne, 20, of St. Louis. No charges were filed against the motorist.

Fisher and Miss Sandra Woodson, daughter of Mr. and Mrs. Dale Woodson, Rural Route One, were engaged and their wedding, which had been set for this Saturday, had been postponed due to his overseas assignment. She is employed at a St. Louis bank.

Sp4 WILLIAM FISHER
Sp4 Fisher, who was drafted last Feb. 18, was a member of the St. Elizabeth's hospital. He was a 1965 graduate of Granite City high school and was employed by Bowland and Triangle Heating Co. before entering the service.

The serviceman was born at Paris, Tenn., and resided here 10 years. He was a member of the First Church of the Nazarene here. His father, Frank Clifford Fisher, was killed in a traffic accident in Granite City.

In addition to his parents, he is survived by a brother, Pvt. Frank Fisher, who is stationed at Fort Polk, La.; two half brothers, Richard and Louis Cottrell, and a sister, Mrs. Mary Price.

B. J. Davis Named to Top Post in GC Schools

Board Decides to End Search Without Seeing Out-of-Town Applicants

Bobby J. Davis, acting superintendent of the Granite City community unit school district, was named superintendent Monday night by the school board, which canceled its call for applications by out-of-town school administrators.

No formal contract was signed, and the amount of salary was delayed until a later meeting, but board members indicated their belief that Davis' hiring was a "win-win" situation for the district.

Since the unexpected death of Supt. Russell D. Johnson last November, Davis has served as acting superintendent and Victor G. Anderson as acting controller. A close consultant has been Egert Lee, personnel and elementary instruction administrator.

Davis' promotion was voted unanimously after board members gave their views and after Anderson and Lee were called in to give their analysis of how the school system has been functioning. All praised Davis' handling of the position.

32 Applications Received
In a procedure set this winter listing desired qualifications as including five years' experience as a superintendent or assistant superintendent, the board had obtained 32 applications that were forwarded to a screening committee of Illinois educators and board members.

A time schedule considered by the board Monday night called for the screening unit to submit a list of seven or ten names to the board March 13, with a final selection made by April 26.

Instead, the screening committee will be disbanded and all applicants will be notified that the vacancy no longer exists.

GC Man Slugged, Pockets Rifled in Own Front Yard

William Pruitt, 55, a local industrial plant worker, was hospitalized Tuesday night when he was slugged from behind and robbed of \$2 after alighting from his car at his home, 1207 Rhodes street.

Pruitt, who is in fair condition with a cerebral concussion and scalp laceration, was hospitalized Tuesday night when he was slugged from behind and robbed of \$2 after alighting from his car at his home, 1207 Rhodes street.

He was knocked unconscious momentarily, and as he was laid down on the ground, he felt his wallet being removed. There was no money in the billfold, and he was returned to his pocket.

The robber then took about \$2 from another pocket of Pruitt's trousers before fleeing. Pruitt is an employee of General Steel Industries.

Sandra Barton, 15, Dies of Cancer

Sandra Joyce Barton, 15, a ninth grade student at Coolidge junior high school, died of cancer at 11:15 p.m. yesterday at her home, 4508 Vine blvd. She had been ill four months and had returned home a month ago, following a hospital stay.

The only child of Mr. and Mrs. J. Sanford Barton, Sandra Joyce was born in St. Louis. She had lived here since the family moved to the community 12 1/2 years ago.

Prof. Hoelscher, who arrived at the hearing almost too late to testify because of a letter that informed him the hearing was to start at 1 p.m., urged the state board to provide in its regulations that the administration of air pollution control regulations, "if the local control has a control law as stringent or more stringent than that of the state, has enforced that law."

He told the board and an audience of more than 100 persons that "we (Granite City) have been working on air pollution for about two years with about one of the weakest laws in the state anywhere. But before you laugh, let me say that even then we have accomplished the same thing."

Hoelscher related details of the recent agreement with Granite City Steel Co. for installation of equipment that will reduce pollutant emissions which the city, through laboratory tests, blamed for paint discoloration on Granite City homes.

He told the state board that Granite City now is planning complete revision of its air pollution control ordinance and that it will embody regulations more stringent than those proposed in some instances by the state control board. The state is adopting its control measures in sections, with public hearings and studies on each group of control measures as they are drafted.

Prof. Hoelscher said that Granite City, as an example of its more stringent controls, is preparing (Continued on page 3, col. 1)

One-Year Contract Ok'd At Union Starch Plant

Ratification was voted last night at the Labor Temple by over 150 members of Oil, Chemical and Atomic Workers Local 7463 for a contract with Union Starch & Refining Co.

The new contract grants hourly increases of five cents retroactive to Feb. 1, 13 cents starting next July 1, and a 3-cent increase to start July 1.

Six Businesses Burglarized, Police Checking 13 Crimes

Burglaries at six business establishments, including four in Madison county, were reported to police and the Madison county sheriff's office this morning.

Burglars broke into four Madison business firms in a 24-hour period Monday and Tuesday, stole cash, merchandise and a few pieces of equipment valued at several hundreds of dollars. Three of the burglaries were reported Tuesday morning and the other on Monday.

James Wynn, a guard at Owens-Illinois Paper Co. reported to Madison police that he surprised three boys in the plant cafeteria about 2:30 a.m. Tuesday. The boys fled and escaped through a window on the east side of the building.

Police said the youths had broken open a milk machine and removed the coils and were trying to open a soda machine when they were surprised. They left behind a hammer, a coat and cap. Wynn reported the boys appeared to be 15 or 16 years old. Wynn fired three warning shots as the boys ran but they did not stop.

James Tarlas, operator of the Tarlas Meat Co. at 42nd street

and Greenwood avenue, reported a burglary at 7:45 a.m. Tuesday that broke into the store's cash register and the night by prying open a door on the north side of the building. The thief prying open drawers in a desk from which \$10 in change was taken. Another \$80 in change was taken from a cabinet in the office.

A burglar got \$50 in silver, \$20 in currency and \$55 worth of checks from the office of Butch's Coal Co., 1329 Iowa street in Madison, the owner, Steve Bucherich, reported at 8:30 a.m. Tuesday. Bucherich told Madison police the burglar broke into the office through a window and left by the rear door. In addition to the money, the burglar took a small radio.

In the fourth break-in, a burglar forced a window on the west side of the building to gain entry to the American Beauty Salon at 193 Madison avenue, a 1st floor beauty parlor, which was reported Monday. The thief not only took the cash register but also hauled away two boxes of hair cream and cleaned out two display cases of lipstick, fingernail polish and perfume. The (Continued on page 3, col. 5)

Dog Sought; Girl, 6, Bitten at Stallings

A search is under way in the Stallings school area for a medium-sized black and white dog with short hair that bit little 6-year-old Georgene Coburn, a first grader, Tuesday afternoon as she was going away from the school building.

Her mother, Mrs. Gerald Siner, 76 Kaseberg Park, and her grandmother, Mrs. Mary Price, 425 Breckenridge lane, have called upon the county humane department and sheriff's office to aid in the search for the stray dog. They are hopeful the animal can be found and that it has had a rabies inoculation.

The girl, whose father is in the Navy, was bitten on the right arm through her coat and suffered three puncture wounds. The family said the girl was on a playground that goes across railroad tracks at the rear of the school when bitten.

Annex with information about the dog is asked to call evening at Mrs. Price's home, SY 3-0225.

Illinois faces the loss of about \$30 million in federal funds for highway construction unless it enacts certain traffic safety measures, including motor vehicle inspection, re-examination of drivers and an expanded driver education program, Secretary of State Paul Powell warned today.

In a talk at Lincoln, Ill., Powell said he has submitted the motor vehicle inspection and driver education proposals to the General Assembly, and the driver re-examination measure is being prepared.

"These approaches to traffic safety are valuable on their own merits, but they become even more important when coupled with the possible loss of \$30 million in federal funds," Secretary Powell said.

"If we have to absorb a financial loss of that magnitude, our highways could soon become safety hazards themselves, and add to our traffic safety problems."

Advocating adoption of the motor vehicle inspection program, the secretary cited the experience last summer, when his office conducted a voluntary inspection program in which half of the cars failed because of one or more defects.

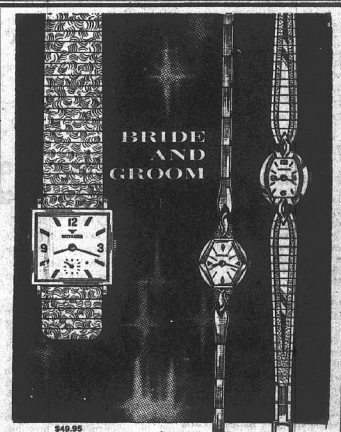

"The owners of these cars were safety-conscious, they wanted to find out whether their cars were safe," he explained. "Owners who knew their cars couldn't pass didn't send them through the inspection lanes."

The driver education measure would increase to 18 years the minimum age to qualify for a driver license except for those 16 and 17 year olds who have passed an approved driver education course.

"We have the figures to prove that young people who have taken driver education are involved in about half as many accidents and are arrested about half as frequently for traffic law violations as those who have not taken the course," he said. "Periodic re-examination of drivers has long been advocated by traffic safety experts."

A measure to require re-examination every 10 years is before the General Assembly, but it will have to be tabled because federal government regulations have since been announced requiring re-examination every four years.

Country Schools

By JOHN W. ALLEN
Southern Illinois University

From time to time an interval of pleasure comes for having been a teacher.

These occur on occasions when letters or personal greetings are received from former pupils, those who survived the "drill, drill, double drill, and no can't see" that filled the learning process of remote days.

Both the written and personal greetings bring somewhat alike "You will not remember me, but I went to school to you at Rhine School in 1908." That generally is partially true for they have outgrown their long time ago looks. When the name is learned, however, they generally are wrong, for they are remembered.

These greetings from aging pupils also painfully remind this negligent pupil that he was not very thoughtful of his teachers. He was not a very good student, but he was a good person. He expressed his appreciation to them for their consideration and kindness. There is no opportunity to do that now for they are all gone, likewise the school era when they served.

Center of Memories

The writer's memories of his school days are almost entirely centered around "Hardscrabble," legally recorded as Ghoshen School, District 92, lying across the Saline-Hamilton county line. Teaching there must have been a somewhat difficult chore. What- ever the conditions were, it took a dozen teachers, and all were men, to help the writer's "age group" through that country school.

These men certainly constitute a varied group. Among them was one college graduate who operated a fruit tree nursery on the side, or perhaps the school was a side interest. Compared to the training of this college graduate that of the others was generally meagre, ranging downward toward a vanishing point. A few had gone a term or two some now almost forgotten college or academy.

Others may have attended a country school for two weeks duration or a privately conducted Summer Normal. These "institutes and normals" were geared toward those ambitious to pass a teachers examination, generally held immediately after the end of the term, before time had dimmed the memories of the subjects reviewed.

Exam for Teachers

The examinations were strictly by rote. The domain of the superintendent of schools. He made the questions, conducted the examination, graded the papers and issued the certificates to those whom he adjudged "of good moral character." In our county it was necessary to pass the examination with a minimum average of 75 to be common to gain a second grade certificate. This certificate was valid for one year and renewable at the option of the superintendent. The superintendent was literally monarch of all he surveyed and could refuse to honor certificates issued by another county superintendent.

Those seeking a first grade certificate were likewise required to pass the common branches examination with an average grade as remembered of 85. He also had to take an examination in botany, zoology and physics. In addition to these there was the state life certificate over which the county superintendent had little control.

In addition to the college graduate mentioned and those who had attended institutes and normals, or who had "gone away to school," there were some who short-circuited the training process and went directly from the one room school to the teachers examination and somehow passed.

Fourteen "Hardscrabble" youths entered the profession by this channel in as many years. A financial way, Hardscrabble was a poor school district but reasonably proud of its scholastic standard. Some excellent teachers came to teach there.

Unusual Interpretations

In its procession of teachers there were some unusual ones, on both the debit and credit side. We still smile at the memory of one who assured us that sun spots were nothing more than sun dogs and that twilight chimes were really above the moon. Doldrum bells were the waste plates of earth like the Great Miami Swamp of Virginia and Everglades of Florida (sounded appropriate). By his reckoning the horse latitudes naturally were the places on earth where many horses were grown, like on the plains of our west and the pampas of Argentina.

One opinionated that mosquitoes sucked out poor blood and that flies cleaned up filth. Thank goodness, he was just one. Hardscrabble, that place he consolidated more than 30 years ago, was a good place to go to school.

paring a 2% sulfur content limit on coal burned for industrial purposes, and is expected to fix a maximum standard limit of 200 parts per million of sulfur dioxide emissions by new equipment.

Eleven speakers testified during the hearing which was held to obtain testimony pertaining to approval or objections to suggested regulations presented by the state board.

C. W. Klassen, technical secretary of the Illinois board said the hearing record would be kept open for ten days in which anyone might file further comment in writing. All testimony will be correlated by the board to aid in determining a final set of regulations.

Bregman, of Chicago, presided at the hearing with Illinois board members Paul B. Hodges of Monsanto and Dr. Thomas J. Kelly of Wood River.

Donald Cairns, plant engineer of the blast furnace department of Granite City Steel Co., and president of the Waste Control Council, told the board:

"A review of rules and regulations proposed for air pollution control for this area reveals that proposals of the Illinois Air Pollution Control Board, the East-West Gateway Coordinating Council and the Industrial Waste Control Council are in substantial agreement on major proposals."

He remained at the clerk's office until midnight, end of the filing period, only two candidates filed their petitions during the night, Pendleton said.

With exception of G. H. Sternberg, alderman in Ward Seven, all incumbent candidates filed petitions for re-election.

In addition to Norn and Benton, candidates include:

Clyde Boyd, 2231 Benton street, incumbent of Ward Three; William Harrison, 728 Twenty-seventh place; Andrew Gasparovic Jr., 2150 Edison avenue; Charles Morrison, 1316 Edwards-ville road, incumbent of Ward One; Gerald Parmley, 3221 Wil- low avenue, incumbent of Ward Six; Samuel Whitman, 1000 State street, incumbent of Ward Two;

J. Mihl, 2132 Iowa street; James Kostoff, 2500 Madison avenue; Claude Green, 2454 Illinois avenue, incumbent of Ward Four; and Dale Skeen, 2432 State street.

Candidates will have through Saturday to withdraw from the city election race.

Under Judge Streep's ruling, Granite City will elect seven aldermen, but their designation as to wards must await redistricting.

Candidates who filed new "at-large" petitions, and who had filed previously by wards, included Harrison, who originally filed in Ward Four, Skem who filed in Ward Seven, and Alexander, who also filed in Ward Seven.

Move forward—progress has always been able to demand and get its own price.

in school administration from the University of Missouri.

He taught history at Chadwick and Salem, Mo., for five years served as a grade school principal at Mexico, Mo., two years, was principal of Central Junior high school here five years and joined St. Johnson's staff two years ago, serving first as administrative assistant and then as assistant to the superintendent.

He and his wife, Loydene, a Mitchell school third grade teacher, have a daughter, Cynthia, 10, and son, Michael, eight, both pupils at Mitchell school.

President L. Monroe Worthen said Monday night that the board has been surprised and pleased at the competency shown despite comparative inexperience. He added that there has been a growing belief in recent weeks that the widespread search for a new superintendent should be brought to an end.

It was decided that to merely add a local name to the out-of-town list would be unfair to all concerned.

Way of Life

To think alike is not the democratic way, but it would help if everyone would think.

MORE ABOUT Motion to Vacate

for alderman candidates to file petitions for the election, and 22 entered the at-large race. Prior to the court order, 12 candidates had filed on a ward basis.

Formal action on filing an appeal of the case is expected at Monday night's city council meeting, though several aldermen and Mayor Partney appear to favor an at-large election, Allen said, and that the motion to vacate was a preliminary step made in the event an appeal may not be necessary.

"Motion Action Order"

The motion claims that Streep's order for the at-large election is, in effect, a mandatory injunction enjoining city officials from holding a general city election on April 4 along ward lines.

The original petition for a writ of mandamus and an injunction cannot be granted in the same order or in the same case. The court in mandamus is limited to requiring the defendants to perform specific acts within their power or duty, but there is no provision in applicable statutes for an at-large election of aldermen, according to the plea.

Where the sole object of the proceedings is to obtain a writ of mandamus, a court cannot grant an order in lieu of the writ.

The original petition for a writ of mandamus filed Jan. 30 for Floyd Miller of Granite City contained no request for an at-large election, only that the city council be restricted into seven wards as provided by law.

Challenge Amendment

An amendment to the original petition was accepted by Judge Streep on Feb. 9, the date of the order calling for the at-large election and redistricting by Dec. 1, 1968. The defense was not informed of the amendment in time to present arguments before the order was issued, Allen said.

The new motion states that the order commanding the at-large election went beyond the evidence and pleadings because the question of disproportionate representation was not raised in Miller's petition, and that raising of the issue and the finding of disproportionate representation is the sole justification for ordering an at-large election.

Additional Arguments

Additional arguments in the motion state that:

"The order of the court requires the defendants to look beyond the writ to determine what they must do when the law in such cases made is to the contrary."

"The order of the court relative to the election at-large is not supported by the pleadings and evidence."

"The order was granted in violation of the Civil Practice Act without affording defendants time to plead after their motion to dismiss was denied, and deprived defendants of their right to trial by jury."

The motion asks the court to vacate all or part of the order of Feb. 9.

Two Trespassing Charges

Jerome Davis, 19, of 3116 1/2th avenue, and Ralph Dunham, 19, of 478 Breckridge lane, were arrested Wednesday night on charges of trespassing on company property. The complaints were filed by Granite City Steel Co.

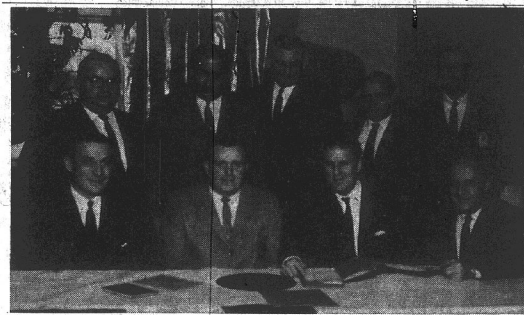

Parked Car Damaged

A parked car owned by Sylvester Gibson, 200 Carver street, Eagle Park Acres, was at 11:55 a.m. yesterday damaged on the Madison high school parking lot. Jeffrey E. Ellen, 1000 Madison avenue, told police he backed up and struck the parked car.

Four old guns, a portable radio valued at \$50, and about 200 pennies were stolen in a burglary at Lybarger Materials Co., East 23rd and Monroe streets, it was reported on Monday. Entry was gained by breaking four glass blocks from a rear window leading to the office.

The guns included an old Civil War breech-loading rifle, a world war I rifle and an American world war I rifle. But were removed from hinge pins on the safe.

Edith Zietler, 2678 East 25th street, a widow in the custody of Union State & Refining Co., reported Monday that \$71 was stolen from a refrigerator in the cafeteria during the weekend. There was no sign of forced entry, though she said the refrigerator remained locked and chained.

A coin collection having a face value of over \$75 was stolen in a burglary at the home of J. J. Simpson, 24 Simpson street, Street Park Place, it was reported Monday to the sheriff's office. Entry was gained by prying the front door.

Maykopp told police his wife was at a Madison tavern where an acquaintance offered to drive her home. Instead, police valued, she was taken to Queen Beech where the man took her purse, containing the \$400, and then drove her to her home, 1427 Washington avenue.

Kiel returned Tuesday from the tournament, where he won the instinctive shooting division competition.

Lacking Height, Trojans Try Harder, Trim Cahokia 51-45

Fighting a Cahokia height advantage and the loss of Trojan rebounder Albert Boyd during most of the first and second periods due to foul problems, the Madison Trojans downed Cahokia 51-45 on the Cahokia basketball court Tuesday.

Boyd, who accumulated three fouls in the opening minutes of the game, sat on the bench until the third period, when he successfully picked off three offensive rebounds and four defensive rebounds for Madison's Midwestern Conference champions.

Inventory Shows Many Waterfowl

The Illinois Department of Conservation has reported that approximately 500,000 ducks were observed during the annual mid-winter waterfowl inventory count.

Observers tallied 439,283 mallards in the state, with over 200,000 seen on the Illinois River and 162,000 estimated to be on Southern Illinois refuge and the Mississippi River.

About 180,000 geese were listed. Of this total, 15,000 were blue and snow geese near Pere Marquette State Park—one of the largest wintering flocks of blues and snows north of the Gulf of Mexico. About 165,000 Canadian geese were seen at the two state refuges and one federal refuge in Southern Illinois.

Observers saw 332 bald eagles, 141 adults and 141 juveniles, and three golden eagles.

Most of the bald eagles were on the Mississippi River from Calhoun county north to the Wisconsin line. Two golden eagles were seen on the Crab Orchard Wildlife Refuge near Carterville, and one was seen in Pike county.

DeMolay Split Two Basketball Games

The Granite City DeMolay basketball team split games with the Collinsville Ascalon Chapter DeMolay chapter Monday at Collinsville.

The Granite City DeMolay B team downed Ascalon 31-19 in the first games and the local A team lost 42-32.

Robert Teague paced the DeMolay B team with nine points, followed by Robert Cawly with five, Michael Welser and Elvin Hoskins four each, Randy Legace, Keith Darner, Larry Wallace and John Tolbert two each and Del McMillan, one point.

Terry Waller led the A team with 11 points, Robert James had eight, Robert Cawly six, James Fitzpatrick four and Charles McMillan, three points.

Pay Tux News
Some prices are stable, but the cost of experience keeps right on going up in price.

During Boyd's absence, the tall Comanches made up for a 13-9 deficit at the close of the first period. By halftime, they boasted a one-point edge, 22-21, over the Trojans.

Neal Podoba picked off two offensive rebounds and one defensive rebound during the second quarter. The Trojans chalked up 18 rebounds in the game, compared to Cahokia's 22.

Regain Slim Lead
In the third period the Comanches applied a semi-stall, trying to alter the fast-breaking Trojans' offense. But the adaptable Madison cagers managed to move ahead 22-31.

The final period saw both teams making an all-out scoring effort. With two minutes left in the game, the Trojans were 10 points ahead, but Cahokia countered and cut the lead with torrid shooting.

The Trojans sank five out of 10 field goal attempts in the final period, compared to Cahokia's five successful shots out of eight tries.

Foul Trouble
Both teams ran into foul problems in the final moments. Cahokia's Ezra Silas left the game on five fouls with 1:34 left.

High-scoring Trojan Gary went to the bench with 34 seconds to go, and Comanche Dave Goble fouled out with but seven seconds remaining.

Lusk paced the Trojans with 24 points, followed by Podoba with 13, Ron Burt seven, Boyd, five, Tim Weston four and Steve Geroff, one point.

The Trojans play their last Midwestern game of this season when they meet Bethalto tomorrow night on the Madison court. The Trojans, 20-1 overall, are 11-0 in conference games.

GC Seeks 14th Straight Sectional Mat Title

The 26th annual section wrestling tournament this area will be held at Wood River high school at noon Saturday, with 92 of the best downstate prep wrestlers in competition for the right to advance to the state meet in Urbana Feb. 24-25.

Wrestlers will be competing for sectional championships and runner-up spots in 12 weight classes; with 24 advancing. Along with the individual rivalry there will be strong team competition. 24 other schools vying with Granite City for top honors.

In the 27 years the sectional has been held, the Warriors have won 21 times and finished second four times. They currently have a 13-year winning streak going.

One of the strongest hopes of the Warriors is Bill Fuchs, who was 1965-66 state runnerup. Prior to the sectional meet last year, Fuchs was sailing with a series of nosebleeds, but he has suffered none this year.

Fuchs, who has won over 100 matches and lost only three matches in three years, won the 96-pound sectional championship last year. Unbeaten this season, he is the only Warrior returning sectional champion.

Eight other Warrior matmen will compete—Jan Gitcho (112), who has lost only one match this season, Bob Miller (95), Gus Schalkham (120), Jerry Lapinski (138), Bruce Illies (145), Ray Hankins (154) and Mike Middleton (HW), all district champions, and Bill Gibson (127), who qualified by winning second place in the district held at Granite City last week.

Other schools sending strong contingents include Decatur, MacArthur of Decatur, Jacksonville, Springfield Fetschans and East St. Louis Lincoln.

Multi-Million Dollar Building

University Center to Open March 3rd at SIU-SW Campus

Southern Illinois University-Southwestern Campus will open its multi-million dollar University Center on the new campus in ceremonies March 3, and an open house will be held in the massive structure two days later.

Designed as the center of University community life, where study and leisure become cooperative factors in education, the building has cafeteria and dining room capacity for serving about 500 persons, bowling lanes, browsing lounge, art gallery, barber shop and university store. There are patios, a sunken garden, and areas for dancing and other student activities.

The \$5,000,000 Center, which has some 175,000 square feet of usable floor space, is being financed from a Housing and Home Finance Agency loan and from a building fund drawn from a \$5 per quarter assessment against students. Funds accruing from the assessment will be used to construct a 100 capacity hall-room auditorium.

Cafeteria, Lounges

In addition to a coffee shop, cafeteria, snack bar and two lounges where food will be served, there will be eight other rooms which will double as classrooms and dining rooms. Four of these and the cafeteria are named for early Indian tribes which occupied the area. Four others are named Illinois, Missouri and for Madison and St. Clair counties.

Robert W. Handy, University Center director, said all cafeteria, snack bar, catering and vending needs of the campus will be served from a central production kitchen.

Other recreational areas include a sun-deck and rooms for crafts, hobbies, chess, table tennis, cards, chess and television viewing.

NEW UNIVERSITY CENTER building on the Southern Illinois University-Southwestern Campus scheduled to be opened March 3. It will have a cafeteria, dining room, lounges, patio, sunken garden, barber shop, bowling alleys and university store.

The University Center is the fifth building of the initial stage of construction at the new campus to be occupied. The Pack Classroom building and the Lovejoy Library opened in the fall of 1965, the science building in September 1966. Classes are being held for the first time during the current winter quarter in the communications building.

The Student Activities Center in the new building contains offices for the Student Senate, the campus newspaper, yearbook, University Center Board and other organizations. A Campus Information Service will be open during the building's hours, equipped with a paging system, campus maps, magazines, tobacco and sundries and campus tours can be arranged here.

"As a 'living room' of the new campus," Center Director Handy explained, "the facility provides for the services, conveniences and amenities the members of the University community need in their daily life on the campus in getting to know and understand one another through informal association outside the classroom."

"As the center of community life," he added, "it serves as a laboratory of citizenship, training students in social responsibility and for leadership in our society."

The three-story building is constructed of deep plum-colored brick, quartz aggregate, pre-cast panels of concrete, and vast expanses of tinted glass, to harmonize with the other four buildings in the academic core of the 2000 acre campus. The master plan for the campus was developed by the University, the architectural firm of Hellmuth, Obata and Kassabaum, with Gyo Obata as the principal designer, and Susaki Dawson and DeMay, site planners and landscape architects.

County Proceeds Toward Buying Old Post Office

The Madison county board of supervisors decided yesterday to proceed with plans to purchase and remodel the old Edwardsville post office building to provide more office space.

On a 23-17 vote during a regular meeting at the court house, the board employed Edward A. Kane, Edwardsville architect, to design remodeling plans and specifications and authorized a call for construction bids when plans are completed.

Total cost is not to exceed \$225,000, including the purchase of the building for \$74,000 from the Cassens interest of Edwardsville.

The county has not yet purchased the building, leading to some of the objections, but the board employed Edward A. Kane, Edwardsville architect, to design remodeling plans and specifications and authorized a call for construction bids when plans are completed.

The building committee said the banks would not make the structure better looking than the specifications drawn by a registered architect.

1st Vote Stopped

An initial vote on the measure was being defeated 14 to 10 when voting was stopped as it became apparent that many of the members were puzzled over the proposed agreement.

The loan is to be repaid from the county's general fund, which was termed as hard-pressed by Leslie Pehm, Finance committee chairman, over a 10-year period with interest not to exceed six per cent. The architect is to receive a six per cent fee of the construction costs of the remodeling.

Two Major Offices

The courthouse committee announced plans to move the offices of the county superintendent of schools and the county highway division into the old post office, in addition to several small offices not directly related to court activities.

The building now has more than 12,000 square feet of floor space, but Kane said plans include installing a second floor which would increase the space to nearly 15,000 square feet.

Before the final vote, a possibility of new state legislation that would open the way for new county courthouses and jail buildings was discussed to determine the post office project would be worth while.

Orvil Oglesby of Wood River township, a member of the board's Legislation committee, said he expected favorable action during the current session of the General Assembly. Briggs remarked that the downtown Edwardsville structure was a bargain at \$74,000 at any rate.

Kaseberg Reappointed

During the meeting the board Reappointed Howard Kaseberg of Granite City, chairman of the county zoning board of appeals, to a new three-year term and Marion J. Wilcox of Edwardsville to a five-year term.

Accepted the resignation of Frank Harrelson, business agent of Pipefitters & Plumbers Local 353 of Wood River, as a member of the board and named William O. Hays of Alton to succeed him. The term expires March 20, 1968.

Purchased a bookkeeping machine for the county auditor's office from the National Cash Register Co. on a low bid of \$4538 plus trade-in of an old machine.

Purchased four police patrol cars from Cassens & Sons of Edwardsville for \$6679, with trade-ins, and a new Chrysler Imperial, fully equipped, for use of the county sheriff for four years from the same firm for \$4774, all on low bids.

Re-employed the Alton auditing firm of R. C. Scheffel Co. to conduct the annual outside county audit.

Central Trades to Aid In Wage Law Controls

The Tri-City Central Trades & Labor Council will assist in the enforcement of the new federal minimum wage law, it was decided at a meeting last night.

The Labor Temple office of Edwin Reiske, council president, will accept complaints on possible violations of the \$1.40 minimum wage.

Action on the matter was taken after a communication was read from George Meny, AFL-CIO president. Reiske said the action is being offered primarily for workers who are not members of labor unions.

The council adopted a rule that a political candidate cannot appear before the central body of the council unless he is endorsed by the legislative committee headed by Vasil Mih.

Delegates representing 48 local unions at the meeting requested that Thomas Griffin, subdirector of the United Steelworkers, be placed on the advisory board of St. Elizabeth Hospital.

Most Gasoline Dealers Up Price Penny a Gallon

The price of gasoline increased by one cent per gallon yesterday at most service stations in the Quad-City area. The decision reached Tuesday evening by the 31-member Quad-Cities Gasoline Dealer's Association.

The hike resulted from last week's announcement by major oil companies that prices to dealers would be boosted by 8 cents per gallon and 25 cents a gallon to wholesalers.

Ralph Strain, association president, said that unlike dealers in other areas, local service station operators withheld the suggested one-cent per gallon price hike for one week to see if the major oil companies would rescind their proposed increase as requested by the federal government.

"The companies have failed to revise the prices back to the old level, and we cannot absorb the increase to us, therefore, we must raise the pump price to our customers," Strain said. He added that the increase in dealers started last week.

In other business, members discussed acquiring an emblem deal to be used by all association stations and preparation of a map of the Quad-Cities to be made available to customers through the association.

The association also was reviewed. Five new members welcomed into the dealer's association were Glen Bartling, Charles Bernhart, Therser Bros., Dave Daniels and Douglas Niles.

Twenty dealers attended Tuesday's meeting held in the Chamber of Commerce office. The association meets at 8 p.m. each second Tuesday of the month, with all local dealers invited to attend.

Hospital Board Hears Report on Campaign

A progress report on organization of the fund drive for modernization and expansion at St. Elizabeth Hospital board was given Monday afternoon for the lay advisory board by Frank Wheeler of Haney & Associates.

Wheeler said announcement on campaign leaders will be made in the near future. Construction of a new wing on hospital property along Iowa street is to be started later this year with funds raised locally, a federal grant of \$60,000, possible added grants and a loan to be obtained by the Sisters of Divine Providence.

The board members, with Joseph Glik presiding, also heard C. E. Blankenship report on security measures within the hospital since the Feb. 1 dismissal of the Shane Agency. More study is being given the methods before a final decision will be reached.

Planning also is under way for additional parking areas at the hospital, which will be needed when construction starts on the new wing at the rear of the present building. A. C. Soever, chairman of the parking committee, said a recommendation will be ready next month.

The committee has inspected parking facilities at other hospitals in the area, and noted St. Mary's Hospital, East St. Louis, has a lot for about 1000 autos and charges 25 cents a day for parking. There are special parking privileges for staff members there.

The advisory board plans to meet again in two weeks to hear reports on the fund drive.

Expansion at Kozyak's Nearing Completion

Features such as a special beefing refrigerator and a "quick-freeze" locker are included in the renovation and expansion project under way at Kozyak's Market, 2600 Nameoki road.

The beefing refrigerator assures positive control of meat flavor and tenderness. A "quick-freeze" locker enables meat processed for home freezers to be stored still retaining the freshness of the meat.

Wider aisles and the addition of two checkout counters for a total of five also are included. Completion date of the expansion, which will triple the sales and display area in the store, is scheduled for mid-March or early April, the owner, William Kozyak, said today.

Ann Crowley's Table Topics

The All-American favorite is beef and with the man in your life, a steak is just what you need.

The tenderest cuts of meat are not the most flavorful. It seems the more the beef muscle is used the better the flavor and the tougher the meat. Cuts from the round of the beef fall into a happy classification. Round steak is better than tenderloin steak and more tender than a shoulder cut. This also puts them into a very desirable price bracket. A little help from a meat tenderizer found on the grocery shelf makes any meat more tender.

Round steak is an excellent source of nutrients. The meat is rich in protein for building body tissues. It is lower in fat than some other cuts of beef which have a greater coating of fat. Round steak is an excellent source of B vitamins. These are necessary for maintaining healthy nerve and muscle tissue. Calcium and iron are also found in goodly amounts in this same cut of beef. Round steak is an excellent buy for taste, nutrition and price per serving.

The best method of preparing round steak is in moist heat as we have in Swiss Steak or Braised Steak with Gravy. If your family is like mine, they prefer one of the most delicious and tender dishes — Swiss Steak.

2 pounds round steak
1 large onion, chopped
1 1/2 to 2 cups stewed tomatoes
1/4 cup flour

3 tablespoons fat
1 teaspoon salt
1/4 teaspoon pepper
1/2 garlic clove

Rub steak with garlic clove. Combine flour, salt and pepper and coat the meat on both sides. Add fat to pan. Brown the steak in a hot pan. Add onions and sauté until golden brown. Cover with tomatoes and cover. Simmer or bake in moderate oven (325° F.) for 1 1/2 hours. This recipe will make 6 to 8 servings.

Grant Sought For Libraries In Grade Schools

Application for \$20,261 in federal tax aid under Title II, Elementary and Secondary Education Act, was authorized by the Granite City school board Monday night.

Last year, the district spent a \$34,422 grant to improve junior high and high school libraries, established an audio-visual aids center and expand the elementary supplemental library. Materials worth \$2800 were obtained for loan to four private schools.

The new grant would be used to continue the 1966 expansion and begin establishment of central libraries in grade schools.

Although the state has rejected an application that Parkway grade school be designated as a regional demonstration center, it has asked for a revised proposal. Supt. Bob J. Davis told the board. Funds will be sought for consultation and planning in regard to instruction of gifted pupils.

Parkview Dedication

Dedication of Parkview school was planned tentatively for Sunday afternoon, March 19. Expenditures for programs, invitations and refreshments were authorized.

The board voted to extend the Hollywood-Andrews studio's student picture contract for the 1967-68 year.

Plans were made to rent Nidmehausen Methodist Church facilities again this year for science fair exhibits prepared at various schools and coordinated by the Central Junior high school science faculty. The event is planned for Feb. 27-March 3. In the science fair has increased yearly, and it has outgrown school and library space. It was noted.

The Granite City Junior Service club was authorized to use the high school auditorium for its annual fashion show March 13-14.

Extend Rail Tax Case

An agreement providing for Attorney Burton Barnard to represent the district in railroad tax objection litigation was extended.

In refusing to hear the case due to lack of a constitutional issue, the U. S. Supreme Court failed to note that the Illinois Supreme Court's rehearing denial included a statement that it had taken into consideration school taxation. On this basis, a new federal appeal is planned.

President Monroe Worthen, Board Members Carl Mackos and George Moore, Supt. Davis and Administrators Victor Anderson and Earl Lee were authorized to confer with Building Service Employees Local 98 on an interpretation which voids duplicate workmen's compensation and sick leave payments.

Smith to be Honored

Use of the Granite City high school cafeteria was authorized for a dinner at which Madison county school administrators will honor House Speaker Ralph D. Smith and other legislators. The date is indefinite.

Plans also are being made for administrators from this county to confer with legislators in Springfield on school needs.

Action was planned for the Feb. 22 board meeting on whether to endorse the April 1 junior college referendum.

The board hired, effective with the resumption of school next August, Philip Mehell, Madison, who will graduate in June from SIU, as a teacher of the educable handicapped, and Miss Sally Ann Sieb, 2261 Pontoon road, who will graduate in June from Eastern Illinois University, as a primary grade teacher.

The board declared vacant a teaching position on which a resignation earlier was denied. A one-year suspension of the state certificate will be recommended.

Resignations were accepted from Mrs. Evelyn Morris, 1 Terrace lane, Washington fourth grade teacher, who is moving to Wheaton, Ill., and Mrs. Restia Bowler, 2830 State street, a Granite City high school cafeteria worker for the past 12 years.

Miss Joanne Higgins, McKinley school physical education teacher, was authorized to represent the school district at an area conference on Recreation and Fitness for the Mentally Retarded Feb. 17-18 in Warrensburg, Mo., and for Mrs. Sally Sewell, district consultant on gifted students, was authorized to attend the National Association for Gifted Children meeting May 2-4 in Hartford, Conn.

On Dean's List

John Deborah Bush, daughter of Mrs. M. L. Bush, 2244 State street, has been named to the dean's list of distinction at Cottoy College, Nevada. Her scholastic achievement during the past semester.

IRS Gives Advice in Getting Income Tax Filing Assistance

Illinois taxpayers seeking professional help in filing their 1966 Federal income tax returns should select only qualified and reputable advisors.

While the majority of tax practitioners are competent and honest, Jay G. Philpott, district director of Internal Revenue for central and southern Illinois, alerted taxpayers to these potential danger signals:

"Beware of the 'expert' who will not be around to answer your questions after the return has been prepared and filed."
"Never sign a blank return and leave it with a stranger."
"Do not sign a tax return prepared in pencil, since the return can be changed later."
"Avoid the advisor who 'guarantees' refunds, wants a percentage of the refund, or supposedly knows all the angles."

"Be on your guard if it is suggested that your refund check be mailed to the practitioner's address."
Philpott said, "A professional assistant should sign on the line provided, the tax returns that he prepares, and you should record his name and address for future reference."

"Taxpayers may delegate the work of preparing a return, but they are liable for their own tax liabilities and legal responsibilities," Philpott concluded.

GC Rated High in 3 Air Pollution Categories

Granite City rated at the top or close to the top in three categories of air pollution during the fall quarter of 1966, it was reported today by Henry Bieniecki, chairman of the city's Air Pollution Control Board.

Bieniecki said the board has received a report compiled through the state's air sampling network for the Illinois Air Pollution Control Board by the Bureau of Air Pollution Control in the Illinois Department of Public Health.

In air sampling of dustfall, sulfation and suspended particulate matter, Granite City is rated first in the state with 153.5 tons per square mile a month in dustfall, is third in the sulfation category and fourth in suspended particulate.

Members of the city Air Pollution Control Board decided unanimously last week to seek stronger standards for the city clean air ordinance, and the board also is in the process of asking the city council for more enforcement powers.

Bieniecki stated: "In dustfall, Granite City had the highest maximum value for the quarter at the 153.5 tons a square mile per month. The minimum value was recorded at Ramsey, Ill., at 4.8 tons a square mile per month. Average for the sampling stations was 34.7 tons.

"In the rate of sulfation, Granite City ranked third in the state behind Wood-River and East St. Louis. The Wood River rate was 4.3 micrograms per 100 square centimeters per day. East St. Louis had 3.6 and Granite City, 2.7.

"In the category of suspended particulate," the chairman said, "the maximum reading was obtained at Chicago Heights with 100 micrograms per cubic meter. Granite City was rated fourth

with 446 micrograms." Bieniecki said the city board has decided to change its meeting date from the second Wednesday of each month to the second Monday of each month. The meetings start at 7:30 in the third floor conference room at the city hall.

The city's acting technical secretary, Prof. Erwin Hoelscher of Washington University, has been authorized to interview retired engineers who might be qualified to assist him in the air pollution control office until a full-time technical secretary is found on March 13.

At last week's meeting, he reported General Steel Industries' emission was considered in compliance with the ordinance limitation and that the firm is making plans to meet the expected requirements of the state board.

County Museum Attracts Over 4850 Visitors in '66

Over 4850 persons were registered visitors to the Madison County Historical Museum, located in the old Weir House at Edwardsville, during 1966.

Founders gifts of \$1000 or more were received from 13 individuals and firms during the year while others contributed varying amounts and school children donated more than \$2000.

Plans for this year include remodeling of two upstairs rooms of the house which was constructed in 1836. One will be a library and the other a bedroom and the work will cost \$1000.

New acquisitions in 1966 included 128 books, 13 garments, 12 boxes of clothing, furniture, tools, pictures, manuscripts, novelties and miscellaneous items.

Items which drew particular attention during the year to various groups were simple old-fashioned kitchen utensils and a cast iron stove, an unusual and elaborately constructed sewing cabinet made by two artisans of Italian descent, a history of Madison county, and letters of Benjamin Godfrey written from 1835 to 1885, containing rare details of the founding of Monticello College.

The museum is open from 9 a.m. to noon and 1 to 5 p.m. Wednesdays and Fridays, 1 to 3 p.m. Saturdays and 2 to 5 p.m. Sundays.

Volunteer workers, "Friends of the Museum," assist the superintendent and her aide in the day-to-day work of the museum, serving as guides, typists or clerks on a scheduled basis.

The staff is seeking to enlist new members, either to assist at the museum or to make financial contributions to it.

Kiwanis' Wives Guests At Valentine Party

Granite City Kiwanians entertained their wives at the club's annual St. Valentine's Day party held in the Rose Bowl restaurant Monday evening.

There were gifts for each guest, and Mrs. Blanche Crass was presented a Valentine bouquet as the evening's special award.

Thirty-one attended the dinner which was served at decorated tables. Mrs. Helen Tondas, Mrs. Lucille Schamot and Mrs. Phyllis Gillette were in charge of decorations.

A program of special interest to the wives, the guest speaker, Earl Parron, local beauty shop proprietor, presented a brief glimpse into the new trends in hair fashion, which he described as "reflecting the diamond-look with hair drawn to a pointed arc at the top, extending to pointed side areas and sweeping into diamond-shaped back styling."

Highlighting his talk with a display of various styled wigs, Parron explained most are obtained from Spain. He said the expensive type wig is completely hand-tied to net. He also demonstrated several men's hairstyles, a portion of the program which proved to be more popular with the wives.

Michael Tondas introduced the guest speaker, and Melvin Gillette, GC Kiwanis president, welcomed the guests.

Next Monday, club members will observe National Boy Scout Week with a program presented by local Boy Scout officials.

Senator Dirksen Defends Policy of Bombing North Vietnam; 1330 at Banquet

Granite City PRESS-RECORD
Thurs. Feb. 16, 1967 Page 31

U. S. Senator Everett M. Dirksen of Illinois defended the policy of bombing North Vietnam during a press conference in Alton Monday night, and said he believes the prospects of peace still are good.

Senator Dirksen, principal speaker at a Madison County Republican Lincoln Day dinner, said that despite the attitude of President Johnson and Secretary of State Dean Rusk, "I must say there is an occasion for peace... I know what I have heard."

In reference to the bombings of North Vietnam, the Senator declared that damage from the bombings keep the enemy busy. "The repairs necessitated by the bombings command the manpower of the enemy and this is a primary factor in war."

Defense of South Vietnam is vital he said, to the defense of Burma, Indonesia and the Philippines because there is no defense line between Saigon and Singapore.

Should Rethink History

Many Quad-City men were among the 1330 persons attending dinner in the Mineral Springs Hotel, who heard Senator Dirksen declare that if he could talk with students at Berkeley, Calif., who would not permit Secretary of Defense McNamara to speak, "I would say they should rethink their country's history to remember those who came here so long ago, and who have given you your heritage."

By Press-Record Staff Photographer
REPUBLICAN CAUSE IS "the Republic and its Freedom," U. S. Sen. Everett M. Dirksen told audience of more than 1300 persons at Lincoln Day dinner in Alton Monday night.

"They should remember the sacrifices, the battle of Bunker Hill... Washington and his Continental at Valley Forge who received 22 cents a day for serving at a soldier in the Revolutionary War," the Senator remarked.

"Lincoln in one of his early speeches in Springfield deplored the violence throughout the country and referred to bodies hanging from trees like Spanish moss," the senator said. "Lincoln remarked that 'some day I shall strike at Slavery.'"

Saved the Union

"Yet, Lincoln's paramount objective was to save the union," Senator Dirksen said. "What dif-

ference would it have made," the senator asked, "if he had freed all the slaves and the Union were to founder?"

The Republican platform of 1856 fostered by Lincoln has "not changed much" to that of party's present position, Dirksen commented.

He attacked the national budget as shocking, and related that when he entered Congress the budget was 4 billion.

"The President shocked us all two weeks ago by presenting us with a budget of 168 billion," he said.

He said that "degeneracy in fiscal affairs is becoming pronounced," and emphasized the remark by asking: "I wonder what Jefferson would think of us now."

"We Have Creditors"

"Don't forget," he said, "that we have creditors. In fact we have 27 billions in short term securities held in Europe. If we don't watch out, the answer may lie in price controls, wage controls and commodity controls."

"Then what happens to freedom? We are now in a period of testing whether any nation dedicated to freedom and equality can survive."

The people, he added, "will not buy Socialism... Socialism is just another name for controls."

He said controls already are firmly entrenched, and remarked that "farmers are paid out of the treasury today for producing nothing while millions of people are starving in the world."

"It gives me a queasy feeling," he added, "to see all the fertile acres lying idle and unproductive while the world is starving."

"This is a country for youth," he continued, "and we must take them by the hand and lead them, showing them the fundamentals of our heritage... we are the legatees."

State Officials, Area Sheriffs to Meet

The state's top law enforcement officials, Ross V. Randolph, director of the Department of Public Safety, and William H. Morris, superintendent of state highway police, will be at the District 11 state police headquarters Sunday afternoon to meet with sheriffs of all counties in District 11.

Invitations to the sheriffs were sent by Capt. Emil Toffant of Madison, who said Director Randolph and Supt. Morris will discuss mutual problems with the sheriffs and explain services offered by state police.

Sheriffs to be present include George Musso of Madison county and those of St. Clair, Monroe, Bond, Clinton, Montgomery, Macoupin, Jersey and Greene.

Woman Arrested, Fined

Dorothy Summers, 3201 Kirkpatrick Homes, was arrested at 3 a.m. Tuesday on a charge of deceptive practices in connection with the cashing of a check. She was fined \$20 plus \$5 costs in magistrate's court and was ordered to make the check good.

Programs Being Planned For Mental Health Week

Dr. Abraham Simon, superintendent of Alton State Hospital, is announcing that Dr. Thomas McConahey, activity program supervisor, has been named chairman of Mental Health Week, to be observed May 1-7.

Open house at the hospital will be Sunday, April 30, from 1 p.m. to 4 p.m.

A number of special programs and events are being planned for Mental Health Week, and further information will be announced, Dr. Simon said.

Seventeen counties are served by Alton State Hospital. The hospital has been divided into four units, three of them serving specific geographical areas of the 17 counties. One unit serves the specialized needs of patients from all counties. Hospital units are Madison, St. Clair, Monroe, Eastern counties and Medical-Surgical.

Dr. McConahey said, "With the hospital now under the unit system, we hope to show people the hospital unit that serves their particular geographical location. This is an opportunity to give

the public a chance to find out about some of the new aspects of mental health treatment."

State Mental Health Officer Outlines Needs of County

"A comprehensive community mental health center, or centers, for Madison county will be a priority goal of the Madison County Mental Health Association which is currently being formed," Mrs. Marian Slivka, field representative of the Illinois Association for Mental Health, said today.

The second organizational meeting of the new Mental Health Association will be held Monday evening, Feb. 27, in the First Federal Savings and Loan, Edwardsville. A board of directors will be elected at that time.

The new chapter will be affiliated with the Illinois Association for Mental Health which has a network of chapters across the state, including the Mental Health Association of St. Clair county.

Mrs. Slivka, who has spent a week in Madison county organizing a Mental Health Association chapter, expressed great pleasure that Representative Melvin Price has shown his interest in the community mental health services in a recent letter to the Director of the Illinois Department of Mental Health.

Mrs. Slivka agreed with Price that Madison county, along with St. Clair county, has critical needs in this area and should receive priority attention for both state and federal mental health funds.

She stressed that all new mental health facilities must be community based and demand for them must come from the community itself.

"Mental Health Associations traditionally have undertaken a social action role, insisting upon a network of services throughout the state. Mental Health education, is needed, first in alerting citizens of Madison county to their mental health needs and then in helping citizens learn where to turn for outside assistance," Mrs. Slivka said.

Think.

What else besides Long Distance telephone service costs you less today than it did 10 years ago?

Tough question. Not many things have gone down in price these past few years. Most goods and services have zoomed up in cost.

Long Distance rates are a pleasant exception. There have been 9 rate reductions in Illinois since 1957.

Nowadays, you can make a three-minute, station-to-station call to anywhere in the continental United States (except Alaska) for \$1 or less after 8 p.m. or all day Sunday. This is the lowest rate ever. (Interesting comparison: The first transcontinental phone call, made in 1915, cost \$20.70.)

And service today is faster and more convenient than ever before.

Better service at lower cost: we think that's a winning combination. Don't you?

Southwestern Bell

Obey That Impulse

JOHN W. ALLEN

Southern Illinois University. People frequently ask, "When is the best time to go sight-seeing southern Illinois?"

Whatever the time may be of questioning. The one word answer, NOW, is a good one. There is no "best" time; since the historic and scenic spots tend to stay put, as well as those where legend clusters.

Each season may offer some particular advantage. It must be remembered, however, that much of beauty always is in the eye of the beholder.

The misty green of early spring, tinges of which are even now visible, certainly is restful, relaxing, and gives the world a new clean look. For a short time the starkness of winter continues to stare back at us through the gradually thickening green mist that is spring.

Then comes the heavy green covering of summer when the sometimes shimmering landscape is wrapped in weeds, shrubs, briars, vines, forest trees and field crops, each doing its bit to hide the bare earth.

With the coming of autumn another change takes place. Large areas of the green-shrouded

landscape take on rich coloring that blend into mile-wide pictures. With the approach of winter this colorful landscape fades into the season's grey with the falling leaves. Much of the earth is bare once more, and that is the season now.

A more or less undressed world lies about us. Rocky bluffs and stream hillside reveal themselves. One has a peek behind the summertime screen. Through leafless woodlands the visitor sees vestiges of old homesteads. He can trace the worn courses of overgrown footpaths and country lanes abandoned decades ago, a few groves in a clump of woodland may guide the prowler to an abandoned and practically forgotten pioneer burying ground with no addition indicated in a lifetime.

Occasional rockwalled springs or fallen stone springhouses mark the sites of early homes. Land records tell us who settled there, often 150 years ago. Heaps of rubble and carved stones lie in the ruins of old fireplaces. A stone wall tells the visitor that there once was a cellar there. This is a good time of year to not used that word is not used

to indicate any questionable activity. It might be better to say explore.

In addition to better visibility, the reasonably hardy visitor is not plagued by fear of snakes, poison ivy, spiders, chiggers and other insect pests. With these and other advantages of winter sight-seeing, why do more of those who like to get out and wander not do so?

There are a number of places in southern Illinois that really should be seen in the winter season. At other times some of them can be only half seen. One such locality is the stretch of sandy eroded bluffs and piers bordering the Mississippi floodplain north of Valmeyer.

Those weathered stones were made so by sand blown from the shore of a great glacial lake that lay to their west in a later glacial age. One of the sections of this long bluff is still referred to as Salt Point. It was in its vicinity that salt was made by the Indians and first white men.

The entire range of bluffs and highlands extending in broken series south from the Valmeyer region to the including Pine Hills in Union county is to be seen to good advantage in winter. To this viewer ruins of Fort de Chartres, the old French village of Prairie du Rocher and the Modoc Bluffs all take an added charm in winter.

The narrow strip of land between State Highway 3 and the Mississippi south of the Mary's River Bridge is interesting to pause and see. People have lived along this stretch for a long time. The ruins of a once important flouring mill in Rockwood, built in the early 1850s, has much of a ruined castle air.

When this mill began to operate, its barreled flour was rolled from the mill to anchored steamboats a few yards away—not the mile it is at present. Rockwood then had the largest woodyard supplying fuel to Mississippi River steamers. It also was an important Underground Railroad crossing point.

Fountain Bluff, Big Hill with its Indian petroglyph, the Devil's Backbone, the Devil's Back and many miles alongside and atop Pine Hills are never thoroughly seen unless a winter visit is included.

While doing these add a turn through Union county Forest and wander about in a game preserve, meanwhile keeping a sharp lookout for such things as deer, wild turkey, raccoons, muskrats, foxes, mink, beaver, owls, eagles, waterfowl and assorted song birds.

Winter really is a good time to do a bit of exploring. A succeeding article will mention some places to be winter visited in the eastern counties of Egypt.

Student View-No Uniformity in State Agency Personnel Practices

By KATHY CLENNER
University of Illinois Student

"The merit system and its objectives sound good on paper but in practice they're a sham," says Robert Henn, executive secretary of the Illinois State Personnel Commission.

"What we need desperately in our state administration is unity between the personnel department and the operating agencies."

Since the code was passed in 1955 there has been no evaluation of the agencies.

As a result, the main office in Springfield really doesn't know if its goal—which is uniformity in personnel administration and procedures—is being accomplished.

"There is a heck of a lot of paper work," one personnel supervisor says, "but nothing ever comes of it."

Because there is a gap between the main office in Springfield and the agencies, each supervisor runs his office as he sees fit.

It Should Be Fixed

Since most of them have been promoted by seniority from clerk to supervisor, they don't know anything about personnel administration. Henn says, "There is

TWO SURPLUS ALDERMEN COSTLY TO TAXPAYERS

To the Editor:

Much has been said and written about the reduction of the wards in the city of Granite City, which should have been done several years ago.

At no time has the city of Granite City been legally entitled under the laws of the state of Illinois to eight wards and 16 aldermen. This has been the all too unanimous opinion of competent legal counsel.

I was a member of the initial committee for redistricting the wards; when it became evident that a redistricting proposal was to be developed in contradiction to state law, I withdrew and became inactive. I was not reappointed to the committee a year ago.

In January 1967 the committee was enlarged and redistricting suddenly became a hot issue, for fear that a court would force the city to redistrict. According to law, or in other words, in seven wards and 14 aldermen.

Who, may I ask, of the seven wards are so satisfied that their place on the city council must be illegally perpetuated at the expense of overburdened taxpayers?

The tax dollars already paid out in compensation for two surplus aldermen would have been furnished for another badly needed fire station in the Namoki area, or another police station or badly-needed branch library.

Many other needs of the city could be paid for with the money paid these two surplus aldermen. The fact remains that it is costing the taxpayers of Granite City not less than \$7200 plus incidental expenses for every term of office of these two surplus aldermen, unless the majority of the council can be convinced that their duty is to comply with the law and not spend the taxpayers' money to perpetuate themselves in office.

The law provides an orderly manner in which to reduce to seven wards or 14 aldermen, and in the adjustment I may be one eliminated.

But I am willing to let the citizens who pay the cost make that decision. Why are the aldermen evading letting the citizens do it?

CHARLES W. MOERLEN
Alderman, First Ward

RULING CAUGHT COUNCIL MEMBER FAR FROM HOME

To the Editor:

I received a telephone call in Pittsburgh, Pa., Friday afternoon and was informed of the Judge Streeter decision—that aldermen would have to run at large and have 710 to 1126 signatures by Feb. 15 at 5 p.m.

I was absolutely amazed. I was over 600 miles from home, and supposed to comply with a decision such as this in less than three days.

But due to the many friends who called, came by my house, took petitions in my behalf, went door-to-door, stood out in the cold and worked in the plants, by late Sunday evening I had in excess of 2000 signatures.

People stood in line for me at the city hall, and money was teetered to drive to Pittsburgh. Excellent legal advice was relayed to me, and much notary work was done.

My own employer, the United Steelworkers of America, made it possible for me to come home Sunday and file on Monday my own petitions and loyalty oath, and there would be no repercussions.

Just as soon as possible I will personally contact each and every one and express my thanks and gratitude.

Appeal Plan Should Be Dropped; At-Large Election Could Improve City Government

Should Granite City aldermen, either individually or collectively, appeal the ruling that they run city-wide this spring?

The point is worthy of discussion because some council members assumed immediately that the at-large election order was detrimental to this community and its residents, and took preliminary steps to be reversed. They cited public confusion and questioned whether there would be balanced and sufficient representation.

Upon reflection, they may come to believe that an at-large election could provide greater instead of lesser balance.

Even if most of those elected city-wide reside in a single neighborhood, which seems unlikely, they still will be outnumbered on the council by the aldermen elected from wards to four-year terms in 1967.

Such a council—composed of ward representatives and terms of aldermen—would have much to offer in terms of solving both political and sectional matters. No city problem falls to affect at least one ward.

Many voters like such a prospect better and better the more they study it.

Aldermen who file an appeal might be mistaken in concluding that the public opposes an at-large vote. Any who were parties to an appeal and also sought to run city-wide would, in effect, be saying to areas outside their ward, "We don't want to have to depend on your votes but, by the way, will you vote for us?"

Best plan might be to drop all consideration of an appeal.

An at-large election, held one time only, could inject new interest in city government and possibly bring unprecedented progress.

Sometimes, as in the case of commercial areas, "you have to do something differently to do it better."

State Landfill Action Needed

The Chouteau township dump fire that shrouded nearby highways in smoke this week focuses public attention on the need for state enactment of stricter landfill procedures.

Missouri has no law that may not be any more unsightly than Illinois trash, but the introduction of two Illinois House proposals to regulate it is understandable.

One, the "dumping grounds" for Missouri and Southern Illinois prohibition area slayings, Madison county must not become a center for dumping of refuse unless there is adequate assurance that each dump on a long-term basis—sanitary areas will remain sanitary, not hazardous and reasonably attractive.

H. 295—Provides that in counties of 200,000 to 2,000,000 people, the county board may without referendum increase by not more than a three-cent rate the maximum tax rate on Aug. 4, 1968, for general county purposes.

H. 297—Permits municipalities to license, tax, regulate or prohibit the sale of alcoholic beverages in the district where they have legal residence.

Insufficient Effort Here, Nationally To Solve Fast-Growing Traffic Problems

Statistics that have attracted little notice tell an appalling story of injury and destruction. U.S. traffic accidents in 1966 killed a record 52,500 people, disabled 930,000 others. People, cars and \$3.3 billion in auto and property damage, over \$3.6 billion in medical expenses, reversed in \$6.5 billion in medical expenses, over-head insurance costs and lost wages.

Any such figures tabulated on a national basis are bound to be shocking, since an immense population and traffic volume are involved. There is a basis for additional concern because the trend is upward—fatalities rose 7% over 1965—and the increase may accelerate in future years.

Factors contributing to street and highway accidents are expanding faster than the efforts being taken to cope with them, in the opinion of Howard Pyle, National Safety Council president. This is certainly true locally, as evidenced by the report issued this week by the Granite City Citizens' Traffic Committee: Known remedies have been ignored and emergency assistance has been dropped by the city council. Only when reacting to a specific tragedy has the municipality moved positively and promptly to seek improvements.

Search for New School Superintendent Completed

Appointment of B. J. Davis as superintendent of the Granite City community unit school district recognizes the manner in which he has handled the duties on an acting basis during the period since the unexpected death of Supt. Russell D. Johnson last fall.

Singleed out by Supt. Johnson from among a staff of 18 principals two years ago to handle a variety of administrative duties under Johnson's supervision, Davis does not fully match the age and experience of the school board members. He was 32 applications for the position. But he was able to maintain operating efficiency, instructional quality and staff enthusiasm in such a way that board members concluded any imported administrator would be unable to match his performance.

This week's action assures continuity of procedure in the Quad-Cities' largest taxing agency and brings a new maturity and youthful vigor to the most challenging elementary-secondary school assignment in Madison county.

Maxvill Best Khoury Graduate In Baseball Major Leagues

As major league baseball players progress in their careers, they generally earn higher salaries and buy more spacious homes. This is helpful in that it provides more room to house their trophies.

Granite City's Dal Maxvill does not yet have enough awards to fill a room, but he has a St. Louis Cardinal General Manager Stan Musial. But he is making a good start in that direction, judging by the huge trophy he received this week as the outstanding American League graduate in the National and American League last season.

Progressing upward through the Granite City police league, high school, Inter-City League, Washington University and minor league competition, Maxvill has become the Cardinals' permanent and world series as a second baseman in 1964 and now is their starting shortstop.

Because it relates to where he got his start in baseball, as a Salvation Army Kid pitcher, the Khoury League award is sure to be one of Maxvill's proudest possessions, regardless of how many additional honors he receives later.

The best that money can buy is not the qualification to look for when selecting public officials.

50 YEARS AGO

FEBRUARY 16, 1917

The city of Venice has issued notices to the various terminal lines and railways connected with the Illinois Traction System of the repeal of franchises of the company through Venice.

The notice gives the company and all connecting lines owned by the company five days in which to remove tracks from the city. The city has prepared forms of the notice to all lines of the company.

In the notice, the city calls attention to the fact that the ordinance giving the lines of the McKinley system the right to operate over the streets of the city has been repealed.

A substantial audience attended the first performance of the new general alarm turned in on third annual minstrel show of the Usher club of St. Joseph's Church, held at the Washington theatre.

Nameok, newly incorporated, is preparing for its first village election, although it has been in existence for more than a century.

The voters of the village held a caucus meeting and gave more power to the agencies until we have well-qualified individuals running for the village council. "When we develop some competency, then we can start delegating some authority."

Approximately 250 yards of the wooden wagon roadway on the north side of the McKinley bridge was destroyed by fire, which started from an unknown cause.

25 YEARS AGO

FEBRUARY 16, 1942

The new \$65,000 building at 1915 Edison avenue will be dedicated. The building is one of the most modern, permanent and ornamental ever erected in Granite City.

It is somewhat similar in appearance to the Granite City Trust and Savings Bank, but embodies two full stories instead of one. The building was conceived by O. E. Hodges, who has become active as a builder and now has under construction a group of residences.

Ed Posage, Belleville heavyweight protégé of Scotty Powell, trainer and WMAA recreational director, won the Community Gloves championship in his class on a decision over William Thompson of Jefferson.

All through the Golden Gloves elimination tournament, Posage defeated his opponents on decisions, two of them being very close.

Use of corridors of the new apartment community high school began following a brief ceremony in which a ribbon barring the way was cut by G. W. Hoelscher, 25 days, and the full \$30 thereafter.

If you were not hospitalized, nothing can be excluded until after a weekend waiting period, beginning with the first day of work you missed. Then the next excludes \$75 a week for the next 21 days, and the full \$30 thereafter.

However, if the \$30 a week you receive was more than 75% of your normal salary, then the waiting period is 30 days from the first day of absence from work. If the \$30 a week is less than 75% of your normal salary, then the waiting period is 14 days from the first day of absence from work.

Where should you file your return, in the district where you are hospitalized, or in the district where you have your legal residence? Tax returns should be filed after the first 30 days is \$100

Less-Than-Half Support

Q.—Is it true that you don't have to provide over half a person's support to be able to claim him as a dependent? I've heard that if several people chipped in to support someone then it was their group's responsibility to decide to decide who should claim the dependency exemption. Is that right?

A.—Under some circumstances that is correct. Cases like this usually arise when several members of a family contribute jointly to the support of another member. When the other tests for claiming a dependent, the IRS will require several people together have provided more than half the support of a person but no one person has contributed more than half, they may agree to permit one of them to claim the exemption.

To do this, the person who desires the exemption must have contributed over 10% of the support and the others who contribute must agree to let him claim the exemption for that year. These declarations must be filed with the return of the one claiming the exemption.

Brotherhood—Following the Golden Rule Every Week

By the National Conference of Christians and Jews

Brotherhood Week, Feb. 19-26, sponsored by the National Conference of Christians and Jews, reminds us that there is one thing on which our founding fathers and our Judeo-Christian teachings would have us unanimously agree—that depriving some American citizens of their rights is unconstitutional, immoral and irrational.

President Johnson, honorary National Brotherhood Week chairman, has said that the principle and practice still remains. It is our task and our responsibility to make certain that the gap is closed.

Social satirists, skeptics and downright cynics snarl at such efforts as Brotherhood Week.

They believe that once-a-year gladiatorial back-slapping and sloganeering fail to meet our human relations needs.

Headlines of riots and confagurations in major American cities are reminder enough.

For this reason, the NCCJ conducts year-round human relations educational programs. Each week of Feb. 19-26 serve as a time of self-examination of our attitudes and a resolution to practice brotherhood throughout the year.

Such reflection is vital. If we are ever to look back on the past with pride, we must first face up to a present of shamefully meager achievement.

Long before the words "interfaith dialogue" became popular, the conference was bringing together Protestant, Catholic, Jewish and Greek Orthodox clergy and lay leaders to ameliorate religious hostilities that divided the nation.

Then, working together during the 51 weeks following Brotherhood Week, let us take what ever steps may be necessary, with all the knowledge and resources at our command, to insure that all Americans are treated equally as citizens of this democracy and as brothers in the family of mankind.

Involvement, not just sympathy, with the aspirations of citizens deprived of their rights is vital if, as President Johnson says, we are to "make real our pledge of equality and brotherhood indivisible with liberty and justice for all."

dialogue, teaching, person-to-person communication and reasoned confrontation, which have brought about a new era of understanding must be applied with even greater vigor to eradicate the poison of racial discrimination.

Let us make a searching examination to determine what specific things need to be done to make America a safer and finer place in which to live.

Then, working together during the 51 weeks following Brotherhood Week, let us take what ever steps may be necessary, with all the knowledge and resources at our command, to insure that all Americans are treated equally as citizens of this democracy and as brothers in the family of mankind.

Income Tax Questions—Deductible Taxes Explained

By Jay G. Philpott
District Director

Q.—What state and local taxes are deductible on my federal tax return?

A.—State and local income taxes, general sales taxes, state and local gasoline taxes, annual ad valorem taxes on real property, and real estate taxes levied for the general welfare are deductible.

Deductions are not allowed for: drivers licenses, state and local taxes on alcoholic beverages, tobacco and certain miscellaneous taxes. Also, the cost of auto tags is deductible only to the extent it is based on the value of your car.

You will find further details on what is and is not deductible in the 1966 instruction booklet, entitled 475. A week for the next 21 days, and the full \$30 thereafter.

Where should you file your return, in the district where you are hospitalized, or in the district where you have your legal residence? Tax returns should be filed after the first 30 days is \$100

Remodeling, Upgrading Work Started by Bow Line Club

Unusually fine weather the past few weekends has enabled 140 feet of steel docks along the members of the Bow Line Boat Club to start an extensive improvement program to upgrade a low water-concrete launching ramp on the Mississippi River, north of the canal, where the 45-member power boat squadron holds its annual boat racing events, Daugherty said.

Present status of the remodeling project resulted in cancellation of the club's regular meeting, scheduled for last night, according to Sidney Daugherty, Bow Line commodore.

The local boating official said the 2x4x8-foot club building is being relocated about 400 feet from its former site. He explained the move was necessitated by the Union Electric Co. decision to install a high voltage power line directly over the original location.

Daugherty added that a portion of the frame structure was damaged during the recent tornado when a large tree split, striking the building. Temporary roof repairs were made to protect the interior, he said, with additional repair work and remodeling planned.

Other improvements to be undertaken by club members this

Stephen Rozycke, 2214 Delmar; Emma Murphy, 1141 Market, Madison; Mary Ferguson, 217 W. 2nd, Madison; George Ramsey, 3119 Rodger; Albert Forrester, 2229 Cleveland; Estelle Marcus, 2417 Adams; Cynthia Blackwell, 2561 Nameoki dr.; Luellamae Edwards, 1642 E. 23rd; Rosemary Boyd, 2400 State; Buel Cotter, 2221 Lynch; Karla Harkey, 225 Lincoln; John Gyarmat, 2549 Waterman; Nicholas Novosel, 250 Washington, Madison; Kevin Freeman, Meadow Lane; Cynthia Strunk, 1 Bermuda; Margaret James, 3234 Westchester; Henry Weber, 2401 Washington; Orle Buniker Jr., 2258 Washington; Richard Counts, 4528 Highway 162.

Patients discharged Tuesday were:

Julie Brown, Belleville, Opal Bybee, 3307 Franklin; Clarence Chambers, 4057 Breckenridge; Wanda Deunert, 2504 Delmar; Beryl Foreshee, 822 Alton, Madison; Teresa Harris, St. Louis; Gary Johnson, 4201 Maryville; Della Liesmann, 219 Hampden; Venice; Mary Ann Sans Souci, 2416 Madison; George Schaffner, 2508 Denver; Victor Fears, 3227 Hampden, Venice; Frank Wimberly, 87 Weaver, Madison; Mary Fernandez, 1746 Poplar; Robert Brooks, E. St. Louis.

ting these acts," Daugherty said today.

He also commented that club members hope to be situated in their new quarters by March 15 and that other work will be progressing satisfactorily at that point.

The Bow Line Boat Club and the Granite City Kiwanis Club recently announced they will co-sponsor a marathon boat race May 21 and their six annual all-clases racing event Aug. 20. Both will be staged on the Mississippi River, near the Hartford Canal.

Pie-Baking Tip

If you prefer serving fresh homemade pies rather than frozen ones, you can save last-minute preparation time by keeping on hand a supply of frozen rolled-out pastry circles. And the flat pastry crusts will take up less freezer space than do those in pie plates.

Geraldine Acker, University of Illinois extension foods specialist, suggests this procedure:

Cut a piece of cardboard to accommodate the rolled-out pastry, and cover the cardboard with waxed paper.

Roll pastry to fit the pie plates you use. Stack the pastry circles on the cardboard, putting two sheets of waxed paper between the circles of dough. You can stack enough for several pies and use them as needed.

Package the stacks of pastry in aluminum foil or plastic bags. Or use a large plastic bag if more convenient, removing as much air as possible from the bag before sealing it.

Remove the frozen pastry as needed. To avoid cracking or breaking the pastry, let it stand for 10 to 15 minutes at room temperature so that it will be pliable enough to place in pie plates. You can then proceed as usual. Give Homemade Garments a Custom-Made Look.

Many women who sew complain that their clothes look homemade. How can you give a garment a custom-made look?

University of Illinois clothing specialist offers some suggestions. Use covered snaps, hooks and eyes to finish your garment. You can buy covered snaps in several sizes in basic colors—black, navy, beige and white. If you need a different color, cover your own. Use lining material or other light-weight fabric that matches your garment.

Follow this method to cover snaps: Cut a circle of material about twice the diameter of the snap. Cut a hole in the center of the circle so that the snap will fit and run a basting thread around the edge of the fabric circle. Place the snap in the center, draw up the basting thread and fasten securely. Stitch the snap to the garment.

To cover hooks and eyes, make a buttonhole thread over the wires using thread that matches the garment fabric.

Clothing specialists emphasize the importance of carefully selecting buttons for that extra touch. For suits and coats they

recommend bound buttonholes rather than the handmade or machine-made type.

Careful pressing throughout construction will add to the tailor-made look. Eliminate bulk at collar points, facing edges and pocket flaps by carefully trimming seam allowances.

Clean Sewing Machine Regularly

If you wish to avoid troubles, clean your machine before you start your spring sewing campaign, suggests University of Illinois clothing specialist Marjorie Sohn.

Dust, grit and lint tend to collect on the working parts of the machine even when it is not in use. Unless they are removed, they will form a gummy mass that will interfere with the smooth running of the machine and may cause it to jam and lock.

Use the manufacturer's instructions in cleaning the equipment. They were designed for your particular machine and have been laboratory-tested. If you have lost or misplaced the instruction book, write the manufacturer for another copy. Be sure to give him the name, serial number and age of your machine.

Flavor—That Special Something

It's amazing how the simplest food can become a feast when you add a bit of spices and herbs.

Seasonings are used around the world in great variety and amounts. Develop an experimental attitude and chart your own course, using family preferences as your guide. When skillfully used, spices and herbs heighten the aroma and taste of everyday foods and pique lazy appetites.

Add seasonings with a light hand at first. Here's one rule-of-thumb: If you can tell the herb or spice by the tasting, you've probably added too much.

These "have you ever tried?" suggestions are for your consideration:

—Roast a loin of pork, and then spread the whole roast with cinnamon applesauce and bake another half hour for a delicious crust.

—Add a tablespoon of chopped, preserved ginger to the seasoning for a pot roast of beef.

—Add half a teaspoon of tabasco to three or four servings of green beans.

—Grind a good grating of nutmeg over baking fish.

—A dash of nutmeg gives special flavor to cheese dishes, such as souffle, omelet and eggs in casserole.

Weed Control Leaflet

A Cooperative Extension Service leaflet listing 1967 weed control recommendations for field crops is now available at the farm adviser's office.

Pre-emergence herbicides recommended for weed control in corn are atrazine, Remrod, Ranzox, Ramrod plus Lorox. The following pre-emergence herbicides have label clearance for corn but, because of lower crop tolerance, are less weed control, are less preferable than the preceding: Alanap and Lorox.

Recommendations also are given for special weed problems such as Johnsongrass, wild garlic and onions, Canada thistle, fence row weed control and brush control.

The field of chemical weed control is still relatively new. Herbicides now available are not perfect. Factors such as rainfall, soil type, and method of application influence their effectiveness.

Under certain conditions some herbicides may damage the crops to which they are applied. In some cases chemical residues in the soil may damage the crops grown later.

When deciding whether or not a herbicide should be used, consider both the risk involved in using a herbicide and the yield losses caused by weeds. Much of the risk involved can be decreased by following these precautions:

Use herbicides only on those crops for which they are specifically approved and recommended.

Use only recommended amounts. Applying too much of a herbicide may damage the

GC Education Association Annual Smorgasbord Tonight

More than 125 persons are expected to attend tonight's annual Granite City Education Association smorgasbord being given by the union in the high school cafeteria at 8:30.

Guest speaker will be Dr. George C. Akerlund, professor of educational administration at SIU-SW campus, who will discuss the report of the Illinois Task Force on Education and its implications for teachers and other school personnel.

Also appearing on the program will be the Granite City High School Madrigal Singers directed by Warren E. Simpkins, vocal music instructor.

Mrs. Beatrice Pyle, association president, said Dr. Akerlund's talk will cover such topics as recommended innovations in education and how they may be implemented; the Task Force recommendations that concern all schools; how non-public school agencies should be involved in the educational process and changes that should be made in the financial and administrative structure of educational systems.

The smorgasbord and program are open to the public.

Four Signal Charges

Richard L. Hodges, 19, of the Ed Rich apartments, East 23rd and Charles streets, was arrested at 12:05 a.m. Tuesday on charges of trespassing on Granite City Steel Co. property and with indecent conduct. The complaint was signed by a company guard.

Apply herbicides only at times specified on the label. Observe recommended intervals between treatment and pasturing or harvesting of crops.

Wear goggles, rubber gloves, and other protective clothing as recommended on the label.

Guard against possible injury to nearby susceptible plants.

Apply herbicides only when all animals and persons not directly involved in the application have been removed. Avoid unnecessary exposure.

Dispose of unused herbicides promptly. If they must be kept, store them in a safe place, away from unauthorized persons, particularly children.

Missing W-2 Forms Can Delay Refunds

A missing W-2 form was a major reason why thousands of taxpayers were late in getting federal tax refunds last year. This form is the withholding statement on salaries and taxes employers are required to give their employees.

Jay G. Philpott, IRS district director for central and southern Illinois, said a return cannot be processed unless required W-2 forms are attached. "A missing W-2 will hold up a refund just as a missing signature or Social Security number will," he said.

Copy B of form W-2 is the one to be filed with federal tax returns. The other copies are for

the taxpayer's records and for state and local purposes if so required.

Taxpayers who held more than one job last year should be sure to enclose a W-2 for each job, Philpott said. On joint returns, W-2 form for both husband and wife should be attached.

If a W-2 form is lost, employers will be able to provide duplicate copies in most cases, Philpott said. If a taxpayer is unable to obtain a W-2 from an employer, the IRS should be notified.

Employers are required to give employees W-2 forms by the end of January.

'Harvest of Books' Planned March 1-25 for SIU-SW

Plans to conduct a great "Harvest of Books" from 20,000 homes in the Quad-City area for the benefit of Southern Illinois University-Southwestern campus library were announced Wednesday by the Madison Rotary club.

At a joint meeting with the Rotary club of Granite City at the Madison recreation center, George Frangoulis of Madison, chairman of the book event, announced that Rotary clubs, Boy Scouts and the public school boards and systems of Madison, Venice and Granite City all are cooperating in the book collection venture, which is being sponsored by Madison Rotarians.

"Purpose of the Harvest of Books," Frangoulis explained, "is to collect many types of books, records, papers and journals in order to add substantially to the collection of the university that serves our area."

"These will be books which people no longer need, or valued items for which the donor desires a safe and permanent repository. Book Fair to Follow

"Of the books and other materials which are donated, SIU will choose what the library needs and can put to good use. The remainder will be offered for sale at a book fair at minimal prices, and these proceeds will be turned over to the Friends of the Library."

Books and other library materials may be donated to SIU in Venice, Granite City, Pontiac Beach, Mitchell and vicinity between March 1 and March 25, Frangoulis said, by bringing them to central collection depot.

In addition, on March 11, approximately 1800 Boy Scouts of the United Way district, Cahokia Mount Council, and members of the Madison Interact club will visit 20,000 homes seeking donations of certain types of books and materials. They will return to pick them up the following Saturday, March 18. Scout "good

turn" operations will be coordinated by John Pekarik, district in the Quad-City area for the benefit of Southern Illinois University-Southwestern campus library. Collection depots for the March 1-25 period will be the public schools in Madison and Venice and the Washington theater in Granite City. All Granite City schools will serve as collection depots for one day, the date to be announced later, Frangoulis said.

Materials Sought

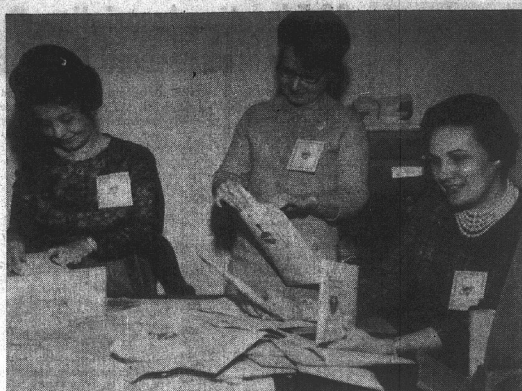

"We are seeking not only books of fiction and non-fiction, but a broad variety of other library materials. These include professional journals, books and papers relating to local immigrant and religious groups, books printed in foreign languages, old school texts and readers published before 1900, catalogs of local business and industry, histories and directories of local organizations, city government publications, city directories and local history books and materials such as diaries and other manuscripts," he said.

The library is also interested in old local scenic postcards and photographs, old prints and pictures indicative of an era, and phonograph records, Frangoulis said.

Any phonograph record made prior to 1918, jazz records of the '20s and '30s, old humorous records, either spoken or sung, any single-faced Victor Red Seal record and all "spoken word" records, new or old, are acceptable.

Other Madison Rotary members on the committee in charge of the Harvest of Books are Dr. Steve K. Geroff, Richard Suess, Menke, President Wayne Scanell, Jack Friedman and Raymond Dragich.

Special guests at Wednesday's meeting included Ralph E. McCord, director of University Libraries for Southern Illinois University, and John C. Abbott, director of Loyola University, who expressed the appreciation of the university for this community's interest in the library.

PREPARING HEART SUNDAY kits are, left to right — Mrs. Elvira Thurber, Sunday Appeal chairman; Mrs. Millie Clements, volunteer captain, and Mrs. Sandra Cuvur, Granite City area chairman.

St. Louis Symphony To Perform at SIU-SW

The St. Louis Symphony Orchestra will spend five days at Southern Illinois University-Southwestern Campus this spring, performing works by composers from a six-state midwestern region, under terms of a \$20,000 Rockefeller Foundation grant.

The symphony will be heard in five open readings sessions and one concert at the new campus, and in a concert at Carbondale between May 2 and May 8.

Composers from Illinois, Missouri, Wisconsin, Kentucky, Iowa and Indiana are invited to submit compositions which have not been performed by major orchestras in this country. A committee of SIU faculty members will screen the compositions, and the St. Louis Symphony's conductor, Eleazar De Carvalho, will decide which will be performed by the orchestra.

At the local campus, there will be five readings sessions of compositions submitted, and selected SIU student musicians will be permitted to sit in with the orchestra.

It is also expected that a composer of national repute will be invited to lead a symposium related to the works read and performed by Lloyd Blakely, chairman of the music faculty. Compositions selected from the readings sessions will be performed at concerts here on May 5, and in Carbondale on May 8.

Composers submitting scores should mail them to: Lloyd G. Blakely, Fine Arts Division, Southern Illinois University, Edwardsville, Illinois 62025. The deadline for submitting scores is March 15.

Quad-Cityans Hear S. America Report By SIU President

Seventy Quad-Cityans and Southern Illinois University administrators dined Tuesday evening at Sunset Hill Holiday Inn and heard a report in words and pictures by SIU President DeWitt W. Morris on his January visit to South America.

Sponsors of the gathering, the first of its type, were the Tri-Cities Chamber of Commerce, headed by President Howard W. Kaseberg, and the Chamber's SIU Liaison Committee with SIU and in the field of foreign affairs. Similar meetings, with faculty members and foreign students as the speakers, may be scheduled in the future.

Dr. Morris, accompanied on the tour and at the dinner by his wife, Dorothy, discussed Peru and Ecuador and presented photographic slides, maps and literature relating to the two countries. Purpose of the journey was to consider establishment of a student, faculty and informational exchange program between SIU and a South American university.

Institutions of higher learning studied included Huancayo, Peru and Cuenca in Ecuador. Dr. and Mrs. Morris also visited a family in South America.

Vast Potential Described

The countries visited have a great economic and cultural potential upon achieving a more stable political climate and upon extending educational opportunities to a wider segment of their population, the speaker commented.

Already, many foreign businesses and sales agencies are flourishing there.

Although there are few formal relationships between South American and U.S. universities at present, both could benefit substantially in terms of broadened knowledge and service, Dr. Morris said, adding that many informal exchanges have taken place in recent years.

It was noted that the history of SIU foreign study covers the past two decades, during which it became the leading participant in the Fulbright sabbatical program.

3 Local GIs Complete Army Cooking Course

The men are Army Privates Ronald L. Feichlin, William C. Logan Jr., and Michael A. Sigite. During the eight-week course, they were trained in cake and pastry baking, meat cutting, and learned to prepare and serve food in Army mess halls and in the field.

Feichlin, 25, is the son of Mr. and Mrs. Tifford L. Feichlin, 2024 Manley avenue. His wife, Joyce Ann, lives at 4140 Division street.

Logan, 21, is the son of Mr. and Mrs. William C. Logan, 2553 Madison avenue.

HE'S NOT BEING NOSEY

Have you ever noticed that, when the doctor sometimes forgets to indicate whether a prescription is for an adult or child, our pharmacist asks you for that information? He isn't being nosey. He must know—for the patient's protection.

Often, dosage specified with an adult in mind could be all wrong—even fatally wrong—if the medication is really intended for a child. Attention to this kind of detail is only one of many "checks and balances" our pharmacist uses to protect you and your family in connection with every prescription he fills. That's one reason why we say... Our Prescriptions are the Best Buy in History!!! 4 Registered Pharmacists!
